MEMORANDUM

To: CMAQ Project Selection Committee

Date: December 17, 2009

From: Ross Patronsky, Senior Planner

Re: Federal Fiscal Year 2011 CMAQ Projects

With the implementation of the rescission process some projects that were programmed in FFY2011 or later are able to move forward and be obligated in FFY2010.

In our efforts to spend down the unobligated balance and implement a "first come, first funded" approach, projects programmed in FFY 2011 or later would technically be allowed to move forward as they are ready regardless of the federal fiscal year they were programmed in. If the region begins obligated CMAQ funds at a rapid pace and the obligation authority is limited in the year FFY 2011 funded may not be available.

According to CMAP's records \$70,853,398 is possible to be obligated during FFY2010 from FFY 2011 or later.

Diesel Emissions Reduction	\$34,054,250
Transit Facility Improvement*	\$31,360,000
Transit Service and Equipment*	\$5,439,148
Total	\$70,853,398

^{*}Does not need state appropriation
